3 year/100,000km
Warranty.
Great!

3 year
Roadside Assist.
Great!

Great Wall.

China, already a global economic & manufacturing powerhouse, will this year replace the USA as the world's largest, most dynamic automotive market.

Great Wall Motors has been recognised for over a decade in China as the market leader in dual cab utes and continues to build a reputation for producing tough and reliable vehicles.

Employing over 22,000 people, exporting to more than 120 countries, investing heavily in state-of-the-art technology and with a strong research and development

program, it's not surprising that Great Wall Motors is

producing highly specified, well built utes that represent uncompromising value.

Now Australia has an opportunity to experience these great vehicles with the launch of the Great Wall SA220 Ute. Add to that a national dealer network with some of Australia's most respected names, a 3 year/100,000km warranty, a 24 hour roadside assistance program and a loan car facility, there's only one word to describe this opportunity to drive The Great Ute of China.....

Great.
